About Navigant

Navigant, Inc. (NYSE: NCI) is a specialized, global professional services firm that helps clients take control of their future. Navigant's professionals apply deep industry knowledge, substantive technical expertise, and an enterprising approach to help clients build, manage and/or protect their business interests. With a focus on industries and clients facing transformational change and significant regulatory or legal pressures, the Firm primarily serves clients in the healthcare, energy and financial services sectors. Across our range of advisory, consulting, outsourcing, and technology/analytics services, Navigant's practitioners bring sharp insight that pinpoints opportunities and delivers powerful results. More information about Navigant can be found at navigant.com.

WHY MICROGADS GOLD?

MicroGADS is used by more than half of the NERC-reporting generators for reporting and analyzing outage data and generating data to the North American Electric Reliability Corporation (NERC), including some of the biggest names in the generating business.

Why trust your GADS reporting needs to anything else when you can rely on the timetested leader with more than two decades of GADS reporting experience?

MicroGADS Gold allows reporting for all technologies — fossil, nuclear, hydro, wind — with just one system.

The MicroGADS software is specifically designed to allow both generation plant staff and headquarters staff to use GADS event and performance data to generate statistics based on standard definitions and statistical methods developed by IEEE and by NERC.

MicroGADS has the support of NERC as an aid to better GADS data reporting.

With MicroGADS you retain control over your confidential data. Yet, MicroGADS can easily handle a distributed processing situation, including operation across your company network servers.

MicroGADS is a complete, integrated solution. No need to buy separate modules for your data entry needs and another module for your reporting requirements — MicroGADS provides an entire solution in one, simple-to-use environment. And, MicroGADS is backed by Navigant (NYSE: NCI) energy expertise.
