

GLOBAL INVESTIGATIONS AND COMPLIANCE

FATCA ADVISORY AND CROSS-BORDER INVESTIGATIONS

The U.S. Government has taken a tough stance on offshore tax evasion as demonstrated by the Foreign Account Tax Compliance Act (“FATCA”) and the numerous large-scale investigations that have often resulted in fines in the tens and hundreds of millions of dollars. Banks, bankers, account holders and others have been placed under investigation for committing or facilitating tax evasion. FATCA, which requires participating foreign financial institutions (“FFIs”) to report on their U.S. account holders, only serves to strengthen the actions and serves as another weapon in the U.S. Government’s arsenal. These bold actions by the U.S. Government mandate a comprehensive response.

Navigant’s Global Investigations and Compliance practice has the expertise and experience to assist financial institutions respond to inquiries by the U.S. Government, whether relating to offshore banking (from the U.S. perspective) inquiries or FATCA. Core to a response is conducting an independent, thorough review to evaluate how compliance was handled in the past, and developing or enhancing a compliance program to mitigate future risks. We have assisted in the response to regulatory offshore banking inquiries, served as independent examiners pursuant to the program for Swiss Banks, and developed FATCA compliance programs for FFIs and their U.S. Branches.¹

Our team includes professionals that previously served as special agents with the Internal Revenue Service-Criminal Investigation, former prosecutors and bank examiners, compliance officers and technologists with highly relevant structured data and banking systems expertise. We offer the following services:
