Migrate from a legacy platform and maintain continuous account resolution effectiveness

We help sustain the momentum of your cash flow while your staff concentrates on getting up to speed on the new system.

LEGACY A/R SYSTEM CONVERSION SOLUTION

Navigant's revenue cycle solutions team, spanning across the organization and its wholly-owned subsidiaries, assists healthcare providers in creating and protecting value in critical revenue cycle management areas. As a leading extended business office services provider, Navigant's subsidiary Navigant Cymetrix received the top-rated score of 92.4 out of 100 in the "2015/2016 Best in KLAS Awards: Software & Services" report — the third year we have received the Best in KLAS Award for extended business office services (also ranking first in 2012 and 2013). Our accounts receivable management team members extend the capabilities of your business office to gain efficiencies, reduce accounts receivable, and increase system conversion productivity.*

The rapidly-changing healthcare landscape has prompted healthcare organizations to move to more integrated health information systems — leading to the replacement of legacy systems. Every system conversion represents a major undertaking for healthcare organizations and comes with its own unique challenges. Navigant offers a proven pre-conversion accounts receivable placement strategy and account resolution that will allow your staff to focus on new system implementation while Navigant assists with revenue maintenance. With Best in KLAS service and a proven strategy based on gradual placement of accounts from the legacy system, Navigant's system conversion solution provides efficient account resolution and helps sustain cash flow.

PROTECT CASH FLOW DURING CONVERSION

Navigant utilizes technology-enhanced processes to efficiently resolve accounts receivable from the legacy system, enabling the healthcare organization to focus on the implementation and training efforts involved in deploying the new system. Our solution assists in achieving a faster sunset of the legacy system while maintaining cash flow and improving provider resource utilization.

Navigant's solution leverages an experienced team that utilizes best practice revenue cycle strategies in all phases of system adoption, from platform selection through post-live system optimization.

Proven placement strategy

AGED ACCOUNTS	PLACEMENT OF ACCOUNTS
> 120 days	4 months prior to conversion
> 90 days	3 months prior to conversion
